Shivam Mishra

Full-Stack Developer | Shopify & E-commerce Specialist

shivammishra070502@gmail.com | linkedin.com/in/mishrashivam07 | github.com/shoUdae | rshivam.xyz

SUMMARY

Full-stack developer with hands-on experience in Shopify theme development, WordPress customization, and MERN and Java Spring Boot applications. I turn business requirements into responsive, maintainable web experiences, from custom storefront functionality to authenticated full-stack apps and API integrations.

SKILLS

E-commerce & CMS: Shopify, Liquid, Shopify CLI, Admin API, GraphQL, WordPress, Elementor, LearnDash
Frontend: HTML5, CSS3, JavaScript, React, Vite, Tailwind CSS, responsive UI
Backend: Node.js, Express.js, Java, Spring Boot, Python, REST APIs, JWT authentication
Data: MongoDB, Mongoose, MySQL, PostgreSQL, SQL
Tools: Git, GitHub, Linux, Coolify, Replit, FileZilla

EXPERIENCE

Web Developer, Agile Digital Edge

- Customize and maintain Shopify themes with Liquid, JavaScript, HTML and CSS for client e-commerce stores.
- Build conditional product-page experiences, custom sections and gang sheet product workflows, and troubleshoot cart and add-to-cart behavior.
- Manage staging and production themes with Git branches and Shopify CLI, including resolving merge conflicts in product templates.
- Investigate page speed and Core Web Vitals issues such as heavy hero media and loading priority.
- Publish and format WordPress technical content and work with child-theme and template files.

Linux Training and Development Intern, GRRAS Linux Training and Development Center (Aug 2023 - Oct 2023)

- Practical exposure to Linux administration, SQL fundamentals and command-line workflows.

PROJECTS

HR Recruitment Portal | MongoDB, Express, React, Node.js, Vite, Tailwind CSS

- Recruitment platform with an admin dashboard and a public job portal, built with separate frontend and backend repositories.
- Role-based admin and candidate flows with JWT authentication; job creation, editing, archiving and deletion; resume uploads with Multer.
- Integrated Google reCAPTCHA v2 with server-side verification and wrote unit and end-to-end tests; deployed with Coolify.

HighQualityTransfers | Shopify, Liquid, JavaScript, Git

- Custom product pages for DTF, UV DTF and sublimation gang sheet products, with conditional visibility of size, price, quantity and upload controls.

Doctor-Patient REST API | Java, Spring Boot

- Backend project for doctor and patient workflows built with Spring Boot.

AI Discord Bot | Python

- Personal project: a Python Discord bot with AI features, built on Replit.

EDUCATION

B.Tech, Computer Science Engineering - RKGIT, Ghaziabad (Graduated 2024)
